(print your name here)

- Church volunteers may not give medicine to children under the age of 18 years.
- We require and provide at least two adults over the age of 18 (one of whom is a church member) in each classroom when teaching children's programs: this provides a more secure environment for our children and teachers. Nursery staff will be provided consistent with VDSS requirements for infant/child/staff ratios and include vetted church staff and church family volunteers.
- Parents are responsible for monitoring their child's behavior and safety at church (when the children are not in supervised classrooms).
- Parents will inform us if their child has any medical or behavioral problems or food, animal, insect, or medicine allergies which might prevent or hinder us from providing a loving and safe environment for children.
